COUNTY ROAD WORK STOPS

Inability to Secure Sufficient Money Causes Cession of Work—Special Committee to Report—Road Superintendent Offers to Resign.

A special session of the County Council was held last Tuesday for the consideration of general business. The Road Committee however held the floor for the larger part of the day, it having been found necessary to curtail the work on the roads because of the inability to finance the project. It was decided to stop all unnecessary work immediately until a special committee make a report to the council, such report to be presented before August 14th. It is understood that Road Superintendent Peter Robertson has tendered his resignation but agreed to continue in his capacity as Superintendent until the special committee had reported. During the afternoon session heated words passed between Councillor Mitchell of North Grimsby and Superintendent Robertson about the work of the late Superintendent and for a few short minutes it appeared as if a sparring contest would ensue.

The report of the Road Committee as presented by Chairman Lane read: Year Road Committee recommend that a small committee of this Council be appointed to consist of the Road Superintendent, the Warden and Chairman Lane to make a survey of the work now going on in the county and report back to this Council before August 14th; and that a special meeting be called to consider their report and all work not absolutely necessary to protect the travelling public be dispensed with until that date and that any material on the way be unloaded.

We also recommend that committee fees and expenses amounting to \$127.50 be paid.

The Committee named were: Councillors Welch, Grady and Fry.

Councillor Masters submitted the report of the Committee on Provincial County Roads as follows:

Your Committee met a similar committee from Westworth County Council in the City of Toronto and together waited upon the Hon. P. C. Higgs, Minister of Highways and laid before him the wishes of the two Councils in regard to the designation of Provincial County Roads.

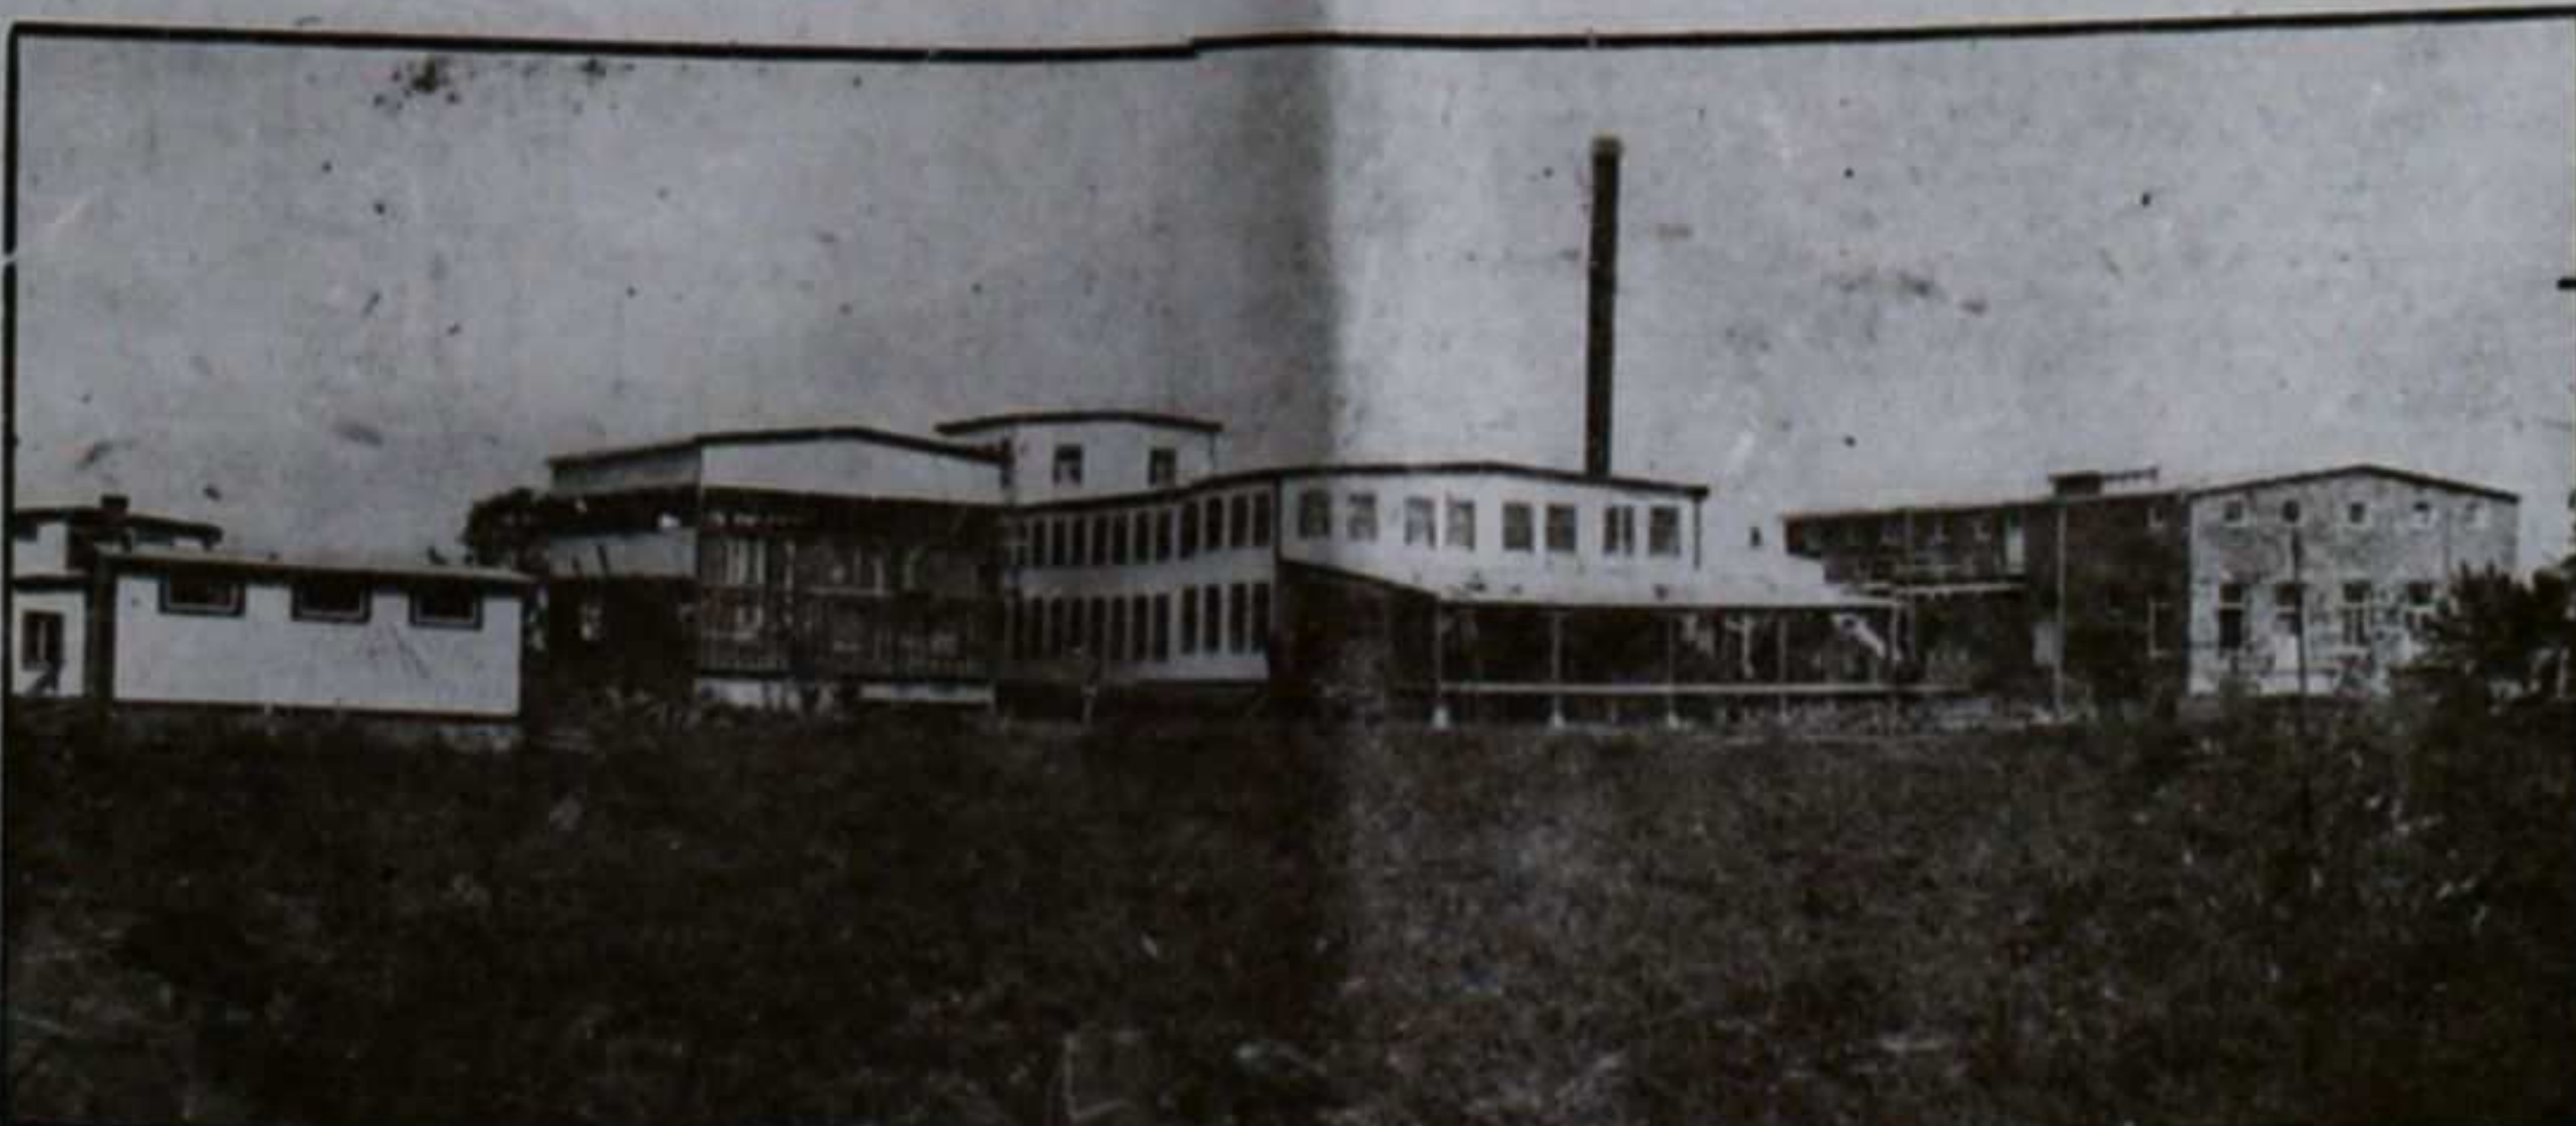

The Minister stated in reply that it was not his intention to designate any Provincial County Roads until all the Provincial Highways had been designated, which would be soon. As soon as this was done, he would have a survey of all the counties made, and Provincial County Roads apportioned to the counties in proportion to the mileage of Provincial Highways which each County had within its borders. He asked that formal resolutions be passed and forwarded to the Department, setting forth the wishes of the Council in the matter.

We recommend that this Council comply with this request of the Minister. We recommend that Committee fees and expenses amounting to \$45 be paid.

Yes, you will get the best results if you take the Pickle Mixture. It is a mixture of prime selected spices in proper proportions to produce firm, fine appearing and tasty pickles. No other spices are required. 25c per package at Parke & Parke Limited Market Square, Hamilton.

Showing at Moore Theatre, Civic Holiday night.

Factory of the Grimsby Fruit Growers Limited, the largest, best equipped and most sanitary plant of its kind in the Fruit Belt

OH! SHADES OF NOAH PHELPS!

Correspondent of Christian Guardian Bemoans Seeming Desecration of Old Time Temple at Grimsby Park—Recalls Entertainers of Long Ago.

Those of us who remember GRIMSBY Park in the old days when it was Canada's Chautauqua, will appreciate the following from the "Ramblers Column" in the Christian Guardian: GRIMSBY Park—now GRIMSBY Beach, forsooth—what memories rise at the thought of the beautiful shore line, the delightful shady nooks, the cosy cottages, and the refreshing lake breezes. What orations were heard and what mighty passions of praise were uplifted in the great auditorium. I see Talmage today as on that memorable Sunday some twenty-seven summers ago, as rising to his extreme height and lifting his extended hand toward Heaven, he flung out a final challenge: I shall never forget a challenge to men to do and dare for Christ, in the words, "Save a Man! Save a Woman! Save a Child!"

Then there was the gentle-voiced Dr. McIntyre, he of the lovable face. (Continued on page 3.)

FAULTY ROAD SIGNS

A correspondent tells the INDEPENDENT that while waiting for a car at the Red Hot chalet last Sunday an auto from Detroit came along and the driver asked the way to Niagara Falls.

There were several—or to be exact three—signs indicating the route to the Glendale Golf grounds; but not one to show that after crossing the railway tracks they should keep to the left instead of going almost straight ahead which would take them up the Albion mountain road—and past the Glendale Golf Club to proceed to Niagara Falls.

And incidentally there was a dandy baseball game going on south of the Red Creek Ravine. And Ben S. Spence did not know of it!

NEWSPAPER SUSPENSIONS

Reprinted from the Financial Post, July 17th

THE reduction in the number of daily newspapers by suspension, absorptions and amalgamations, is not alone due to higher paper and other costs, but to changing conditions in the newspaper business, and is likely to continue for we are entering upon most critical times for them.

The main supply of world-wide news is now furnished by the Associated Press and several other news-gathering services. Exactly the same general, and much of the local, news appears in every daily newspaper in Canada. The same condition exists in the advertising columns. This standardization of news and advertising service is likely to go on steadily improving, and the publication of more than one good morning or evening paper in a centre is becoming very much of a wasteful duplication of effort. A good daily paper, even in the smallest centres, is well worth, and should be sold for five cents, and a family should be content with one.

Rural weeklies, national weeklies and periodicals are in a different class. Their contents are entirely original. That is, they do not appear in any other publication. They are becoming increasingly more expensive to produce. The reading matter in a single issue of a leading Canadian magazine costs more than eight to ten times the whole reading contents in a leading daily paper.

The Free Press, Forest, Ontario, refers to the passing out, because of the increased costs within the last few years, of the fifteen newspapers published in Hamilton, Ontario. It is regretted by those who know country life in Canada. A rural weekly and small city daily is more of a public institution than a money-making enterprise. There are few editors of rural and smaller daily papers who are not underpaid, self-sacrificing public servants. They give more to their communities, and when they are leaders, as so many are, commanding respect and confidence, their papers are a great power. The Financial Post is in cordial sympathy with the action of Parliament in continuing to—in spite of the opposition of the big city dailies for whom R. L. Richardson, M.P., spoke—to transport rural weeklies free of charge in their local districts. Another phase of good work these local papers do is to keep those who go out into the world, to the big centres and foreign parts, in touch with their old homes. For that reason we would also favor carrying copies of rural papers going to these subscribers free of postage. This is really a great national service, a good investment for the country. There are few men or women who do not hope to go back to and do something for the old home. If the world treats them well they want to share the good things with the schools, churches and institutions in their old homes. Many of them do. These generous thoughts can be best retained by keeping them constantly in touch with the dailies at home. There is only one way—the local newspaper. No matter how busy we are we make time to read that, if it comes to us. At one time these papers were carried free to any subscriber in Canada or in the United States, but Dr. Coulter dropped this very soon after his advent to the Deputy Postmaster-Generalship. It was a very serious mistake. Thousands of Canadians were cut off who never since have regained touch.

We submit these facts to Parliament with the suggestion that they, the M.P.s, seriously consider whether, as a good business proposition—we should not permit these rural weeklies and smaller dailies an unlimited free postage area. The investment will be trifling and the return to the nation very profitable.

GLARING HEADLIGHT LAW IS DISREGARDED

FRUIT THIEVES ARE BUSY AGAIN

The appeal of the fruit belt reaches not only the sightseer, the beauty lover and those who wish to invest, but those who are inclined to steal. This is not the first case recorded by any means, but the nerve displayed is good. On Friday night last while returning from the garden party at Vivian's a party noticed a car stopped at the west gate of Harry Sturch's property on the Ridge road, headed toward the mountain. As they approached the standing car started ahead but concluded not to run away, so stopped and allowed the other car to pass. In the morning Mr. Sturch discovered that thirty-three eleven quart baskets of cherries were gone, those who saw the car felt sure that was the car which had been followed to the mountain.

Telephone messages were sent to the different chiefs of police in the surrounding districts giving what meagre descriptions as were available of the two young thieves.

It is the desire of the publisher that all should take an interest in your own paper. If you are friends visiting you, or are going away for a trip, please word send it on a post card. Phone 28.

Two Serious Accidents Attributable to This Menace to Safety—Hamilton Girl Perhaps Fatally Injured—Guilty Driver Gets Away Without Stopping.

A most horrible accident occurred on the highway West of the Town late on Saturday night in which a young woman from Hamilton is either disfigured for life or will lose her life.

A motorcycle driven by E. R. Bradley of the Grant Hospital, Hamilton, with Miss Elizabeth Bullock of 167 Locke street north, Hamilton occupying the side car, going west met an automobile just west of the hallow at VanBuskirk's. The auto was travelling at a high rate of speed and the glaring headlights so blinded Bradley that he could not avoid what is claimed to have been an unlighted and unprotected pile of stone near the centre of the highway. There is a long "windrow" of stone from this point west and an extra truck load had been dumped almost in the centre of the road just where the two cars met, with the result that the side car of the motorcycle struck it and threw the occupant under the eastbound auto. Both fore and hind wheels ran over the unfortunate woman's head, terribly lacerating her face.

The injured woman was carried (Continued on page 8.)

MACHINES MOST HUMAN

System and Cleanliness Marked on Every Hand—Visit to Factory Well Worth Time Expended—All Capital Invested From In and Around Grimsby—Business Expanding.

(By Mille)

Fruit, fruit and still more fruit. A stream of fruit in countless cans moving continuously in the sight that greets one on entering the canning factory of the GRIMSBY Fruit Growers Limited.

And were it not for that continuously automatic carrying from fruit house to warehouse they would not be able to handle the tremendous quantities they are receiving. A few days ago just before the cherry season closed I visited this factory and told Superintendent A. T. Gahan that we wanted a story, and he started me through.

There were several rows of women—eighty-two of them—at tables working on cherries and raspberries and it was truly a sight to see the speed with which the fruit disappeared into the cans and then the cans travel on for several hundred feet to the warehouse and into the cases without being touched by hand.

The whole system is unique. The berries for instance are spread out on a series of small tables with raised edges, one quarter of a mile to each woman. In the centre of the table is a round opening under which sets the can and as the berries are picked over they drop through into the can instead of being scooped up by hand and put in. When the can is full it passes to the scales where the required attention is given, and from there the can starts its non-stop trip to the case in the warehouse over 200 feet from the start, taking ten minutes only from the fillers to boxes.

From the scales a continuous belt conveys the cans to an automatic syrup machine with a capacity of 120 cans per minute. (At the time of this visit it was regulated to an even 72 per minute). The exact amount of syrup is ejected and the can moves on around to the belt which carries it through a steam heated exhaust chamber, which sterilizes and exhausts all the air from the contents. As the cans leave this chamber they run into a device, invented by W. Scott Marriott, which turns one can toward one sealing machine and the next can to the other machine, where they are sealed and proceed on their way to the cookers. On this trip they are kept the proper distance apart by a divider the product of Mr. Gahan's mind.

From the belt they drop into the pockets of an elevator at the top of which they start by gravity for the cooker through which they travel spirally. These cookers—there are two of them—are wonders in themselves compared to the old time process. The cans roll in at the top continuously and travel through, according to the way they are regulated, in from three to twenty minutes. (Continued on page 8)

TELL US ABOUT IT

The INDEPENDENT would be very much pleased to receive "I remember" stories from our old time citizens. They would be very interesting reading to the newer generation and would perpetuate real history of the greatest little town—the New World.

There are many of the older residents who could tell fascinating stories of "honest-to-goodness" happenings and the INDEPENDENT will pass them along. And—if you prefer to not have your name mentioned it will not be used.

To sit down and write a history of GRIMSBY would be a long and tedious work, but little incidents, told in a conversational way would be easier to write and far more interesting to read.

For instance: There was a fire some years ago and a new member of the fire company, after going about half way to the fire, ran back home and got his red tunic, thinking it was requisite. This story told correctly would bring many other incidents and as each was told would bring forth others, ad lib.

The INDEPENDENT will be glad to print them and most of our readers will be pleased to read them.

MOTOR SECTION

COST OF BREAKING TIMOTHY

Special Extension Bulletin No. 31
published by the Agricultural Extension
Division, St. Paul, gives figures
obtained from 87 farmers operating
three-bottom plows with tractors and
shows the following costs per acre
for these tractors when run 500
hours per year:

2 1/2 gal. kerosene.....	30
1/4 gal. oil.....	11
Labor 1 1/2 hr.....	44
Depreciation.....	45
Interest 7 p.c. of average value.....	15
Repairs, 3 1/2 p.c. of original price.....	12
Total.....	\$1.55

SPEEDING UP A COLD MOTOR

A gasoline motor is essentially a
heat engine because it derives its
power by converting fuel into heat.
That is why a motor operates more
efficiently when it is warm and why
many motorists make a practice of
racing their motors when first start-
ing them. They want their engines
to become warm quickly for satis-
factory operation.

In the speeding up of a cold motor
there are two points that should be
considered:

1. Because the engine is cold a
richer and better gasoline mixture is
needed or winter driving than at
ordinary temperatures.

2. Because alcohol is added to the
water in the cooling system to pre-
vent the radiator from freezing,
cylinder walls naturally tend to be-
come intensely cold.

So the combination of these two
conditions necessarily requires cau-
tious handling of the motor in cold
weather. Several things might hap-
pen as the result of too much haste
in preparing the motor for efficient
operation.

First, let us see what actually
takes place in a motor when it is
started on a cold day. Because low
temperatures greatly reduce the
volatilization of present-day gaso-
line, it is necessary to send an extra
rich mixture of gasoline into the
cylinder chambers.

Now when this mixture rushes into
the cylinders, portions of it strike
the cold walls and immediately con-
dense or return to the liquid form.
The gasoline naturally runs down
the cylinder walls, washes out the
oil between the pistons and cylinder
walls, and finally weakens the lubri-
cating qualities of the oil in the low-
er half of the crank case.

After several explosions in the
cylinder chamber, the rich gasoline
mixture firing above the pistons
creates an intense heat on the
heads of the pistons. And the pis-
tons expand much faster than the
cylinder walls, which are kept cold
by the alcohol and water.

With the oil washed out from be-
tween the pistons and walls and with
the pistons expanding faster than the
walls, the increased friction might
cause the pistons to score the cylin-
der if the motor is raced on starting.
It is even possible for the pistons to
cease moving or stick to the cylinder
walls.

So it is advisable to warm up the
motor slowly and to drain off and re-
plenish the motor oil more frequent-
ly in winter than in summer. Tak-
ing an additional minute or two in
preparing the engine for cold weath-
er driving is the mark of a good
motorist.

BEARINGS OF NEW CAR

Whatever one's notions of the new
car's monetary value may be, it is
well to bear in mind that mechanic-
ally a car is no better than its bear-
ings. With the exception of lubrica-
tion the most important factors in-
volved in the satisfactory operation
of an automobile are the bearings.
And it is the bearings that in a new
car are apt to refuse to be imposed
upon before they are properly intro-
duced to their arduous duties.

At the factory bearings are fitted
very carefully. The job itself is not
one to be undertaken by a novice. It is
pampering work even for an expert
to obtain proper bearing surfaces.
But a perfect bearing surface never
is a hand-made job but the result of
gradual wearing-in process going on
during the engine's operation under
load. In spite of the fact that bear-
ings as well as shafts are finished
with the mechanical precision of ex-
ceptionally accurate machines the
final fitting of the bearings—in the
better cars at least—is done by hand
by the spotting-in process in which
a good deal of the success depends on
the dexterity of the operator and the
care with which he proceeds.

The habit metal with which plain
engine bearings are lined is compres-
sible to a certain extent, so that af-
ter the bearing surfaces have been
hammered by many thousands of ex-
plosions they take a certain "set"
with the result that they become
measurably larger. This being the
case, the factory very sensibly ad-
justs the bearings as close as possi-
ble, well knowing that the first few
hundred miles or road travel will op-
en them to the proper fit. What the
motorist should keep before him in
the first few days of his companion-
ship with the new car is that within
the initial five hundred miles the
bearings may run hot; this applies
with particular force to the main en-
gine bearings which in case of dam-
age cannot be reached except by the
expensive process of partially dis-
mantling the motor.

Aside from the "set" a babbit-lined
bearing gradually assumes a degree
of glass-like smoothness that comes
only from actual service contact of
the bearing and the shaft turning in
it. Before that time the bearings re-
tain a certain roughness which even
the most careful scraping, spotting
and fitting cannot eliminate. Even
the most generous lubrication is often
unable to reduce the friction thus set
up to a point not involving tempo-
rary danger.

The "Motor Hobo" is a new word
coined through the habit of people
who steal and beg rides.

No less than 30,000 tractors will
be used this year in the great agri-
cultural districts of Canada.

North Carolina, with a percentage
of gain in registration of 51 per
cent, leads all States in automobile
buying.

The New York City Police Depart-
ment uses a Bertillon system in
identifying the many makes of au-
tomobiles.

Europeans claim that in America
"the incentive behind the sales of
90 per cent of the automobiles is
woman."

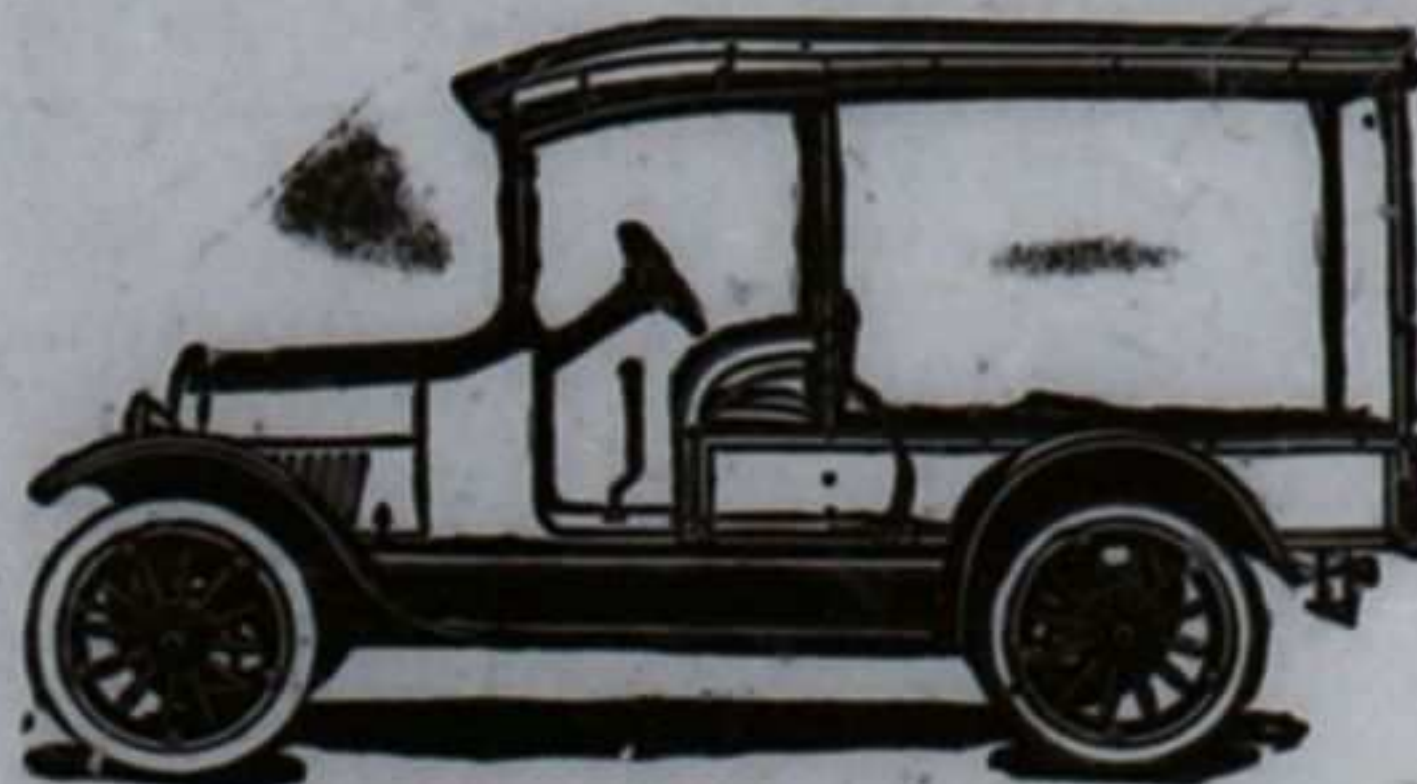

For the production of gasoline
over 213,000 new oil wells have been
drilled in the past ten years in the
United States.

Giving Canada NEW Riding Qualities

IF the Overland only gave you
the remarkable riding com-
fort it does, it would still be Can-
ada's greatest light weight car.

But it does more than this—

The Overland gives you the
economy of 100-inch wheelbase
from the moment you buy it.

Its 130-inch Springbase frees
you from jolts and jars that
annoy you or damage the car.

This means greater riding com-
fort for passengers and longer
life for every mechanical part.

The Overland is finished in
bright, weather-resisting enamel
and upholstered with extra deep
cushion springs. It is electric-
ally started and lighted.

One of Canada's largest man-
ufacturing enterprises builds this
car for Canadians.

OH! SHADES OF NOAH PHELPS

(Continued from page 1)

How the Rambler warmed to his message. Truly there were giants in those days—what a pity lecturers are not still given in Canada the patronage and prominence of former days. The Whyte Brothers, John and David; how the young chap far back toward the outer circle of that immense throng thrilled to their message in song. "Will He Not Come Back," "A Song of Trust" and others of the kind were sung with an infinite tenderness and an appeal which I now realize was not merely the product of art but the result of beautiful, natural voices, speaking a heartfelt message of the love of God. I can never forget their messages in song.

The great choir at the evening meetings—you can perhaps imagine the revelation, too, that must have been to the young music lover who had never heard a larger band of singers than the choirs of his own small village. The selections were not pretentious but they went with a swing and a dash that was infectious. "The Song of the Triton"—yes, that was one of the choruses. It was well done. I have heard it sung many times since, but it has never thrilled me as it did on that memorable visit to GRIMSBY Park.

The mighty auditorium, that amazing fabric which required, as I have been told, upwards of two millions of feet of lumber and some sixteen or more tons of nails to construct—it still stands. To what use these men, however, it has been put. It serves today as a shelter for automobiles. Shades of Spurgeon and Noah Phelps!—a garage where once stood a Temple—a Holy Place, where once assembled thousands voiced their hymns of praise, now becomes a shelter of motor cars! One experiences feelings akin to those I felt at GRIMSBY yesterday, on seeing thoughtless children roving over the graves of one's beloved dead.

Perhaps some day the united churches of Canada may take over the care of this, one of Canada's most restful beauty spots,—let us hope so. It would seem well worth the effort.

G. W. V. A. CORNER

The August General Meeting of the local Branch will be held in the Clubrooms on Tuesday evening, August 10, 1920, at eight-fifteen o'clock sharp. The Executive Committee will meet at seven-thirty sharp. A large attendance is urged, as a great deal of important business will come up for consideration, including the resignation of the President; the raising of dues, etc.

The second Annual Decorative Service of the local Branch will be held at Queen's Lawn Cemetery, on Sunday afternoon, August 8, 1920, at two-forty-five o'clock. "Fall in" at the Clubrooms at two-thirty. Dress—Uniform, with medals and decorations, if possible. The Boy Scouts Bugle Band will head the parade; and every ex-service man in the District is cordially invited to attend. The public are invited to donate flowers for the decoration of the graves of the fallen comrades.

The recent Bonus to Pensions, granted by the Dominion Parliament applies only to ex-service men (pensioners) below the rank of Lieutenant.

Every Comrade who is in arrears with his dues is urged to pay them—and those who have not paid for the current quarter are similarly urged to "call on" the Secretary-Treasurer.

Boost your own ball-team—Nobody else will if the Veterans show a lack of interest.

Next of kin of fallen soldiers are reminded that it requires but an application to secure the Cross issued by the Dominion Government to those who served in the Great War.

Every Comrade should bring a new member in before the end of the year. Watch the effect of a steady increase in membership on the work accomplished and the influence sustained by the G. W. V. A.

Next of kin of fallen comrades; and those of the Originals of the First Contingent are again reminded that they can secure a Princess Mary Gift Box by applying to Com. John E. Scott. See them in his window.

(Hon.) Comrade H. H. Marsh is requesting in this issue the regimental number, name, unit and present address of all ex-overseas men enlisted from the Village or Township and have not yet received their municipal medal; and the name of the next-of-kin of those who have fallen, who have not received the one for their sacrifice. Send 'em in.

CANOE FOUND DRIFTING ON LAKE

The finding adrift on Lake Ontario five miles from the shore at Winona, of a canoe containing a man's straw hat and water-proof coat, engaged the attention of the Hamilton police department last week. The craft was taken in tow on Tuesday by Abe Hand, a Winona fisherman and the facts, which point to a fatality, were reported to the Police.

In the pocket of the raincoat was discovered a card entitling the holder to dancing lessons at Mosher's dancing academy, Toronto and as could be discerned the name of the owner was H. M. Adams. There was no address. The coat, grey in color, was made by the Goodyear Rubber company. The straw hat bore the name of L. J. Applegate & Son, Toronto.

The canoe, a product of T. Eaton & Co., is about 18 feet in length and of natural wood finish, with a blue and gold stripe encircling the body below the gunwale. On it show appears the name Yoho.

Considering the strong winds and heavy seas prevailing before the boat was found, Mr. Hand is of the opinion that unless it contained an occupant until shortly before it was discovered, the craft could not have drifted so far on the open lake without capsizing, and, for that reason, believes the person it carried met with disaster.

As there is little doubt that the canoe hailed from the Queen city, the police communicated the circumstances to the Toronto authorities.

Mystery Cleared

Toronto, July 30.—The mystery of the empty canoe found floating in the lake near Winona yesterday was cleared up to-day, when H. M. Adams, 1236 King west, a clerk in the assessment department, city hall, walked into Inspector Guthrie's office and told the chief of detectives he was the man who owned the canoe.

"I don't want anyone to be sending me flowers while I am still alive," stated Adams to Inspector Guthrie, after relating how he lost the canoe from his sail boat on Sunday.

Speaking to the Spectator, Mr. Adams told how the canoe went adrift.

We were sailing home on Sunday night from GRIMSBY Beach. There was a bit of a sea running and the wind was pretty stiff. I was asleep and the canoe was tied to the sail boat. My chum F. L. Edwards of Swansea, was at the tiller. The boat swung about and the strain was too much and the tow line parted and we lost the canoe. We cruised around for a time and had to give up the search after swinging around our course."

NEW FRUIT COMPANY FORMED

The fruit growers in the Fruitland district held a meeting Wednesday evening with H. C. Gerrard as chairman and F. Cloke secretary, to discuss the advisability of forming a co-operative company for the sale of their fruit and purchase of supplies. There were 24 growers present, and it was decided to form a co-operative joint stock company. Application for incorporation as the Fruitland Co-operative Co. Limited, was made with Carpenter Bros., R. J. Dewar, J. W. Batty as provincial directors. Mr. Hart, from the department of agriculture at Toronto, was present and pointed out the advantages both to the grower and consumer, which might be attained by better distribution through co-operative work.

Uruguay has a motor car for every 148 inhabitants. Five hundred and eighty different makes of motor vehicles are in use in New York City.

LOCAL ITEMS

S. E. and Mrs. Mabey and George Mabey of Olean, N. Y., spent the week end with W. F. and Mrs. Whittaker.

Mr. and Mrs. Jack Fied of Cleveland, spent the week-end with Clinton and Mrs. McCoy.

Mrs. John Duchannan of Toronto, spent the week-end with Mrs. H. Kirk.

Miss Lorna Ballantyne of Galt, Miss Winnifred Seaman of Toronto and Miss Seaman of St. Catharines, spent the week-end in town.

Mr. and Mrs. A. Harrison and son Kenneth of Toronto, and Mr. Fred Bertrou of Burlington, are visitors at the home of Mr. and Mrs. Steve Spencer, Elm street.

GRAPE GROWERS—Come to a meeting Friday, August 6, in Council Chambers, GRIMSBY at 8 p.m. It will pay you. See adv. in this paper. Jas. A. Livingston, Chairman, Local Branch.

The fourth annual Garden Party of the Tapleystown Literary Society will be held on the evening of Wednesday August 11th, at the home of Mr. Eriand Lee, Edgemont. The proceeds will be donated to the Mountain Sanatorium, Hamilton. Don't miss this important event and watch the posters for the attractive program.

Clinton Township men were well up in the Niagara district vegetable growers' competition in potatoes recently judged. William Betler, Beamsville, was first with 95 points; Dunlop Brothers, St. Catharines, second with 94 points; H. M. Kittenhouse, Beamsville, third with 93½; W. S. Eborall, Beamsville, fourth with 91½; G. B. McCalla, St. Catharines, fifth with 90 points; O. J. Robb, Vineland, sixth with 89½ points.

The three day bazaar on the grounds of St. Joseph Church on Thursday, Friday and Saturday nights last was a big success. All the booths were well patronized and the dancing platform was a mecca for all lovers of the light fantastic toe. The Hammett Sisters of Hamilton, instrumentalists, singers and dancers delighted the crowd on Saturday night with their wonderful entertaining. These girls have only recently returned from France where they served nineteen months with the K. C. encampments entertaining the fighting lads.

GRIMSBY GRAPE GROWERS

Please come to a meeting in the Council Chambers, GRIMSBY on Friday, August 6th, at 8 p.m. to arrange for a delegation for to go to the mass meeting of Grape Growers to be held in the Court House, St. Catharines, on Saturday, August 7th at 2:30 p.m., when the Price Committee will make its report. We want every grape grower in North GRIMSBY to become a member. We will get results if we all stick together.

District Summary

Smithville Review—Miss Edna Tuck of S. S. No. 8, in the township of Gainsboro won the H. Cracey gold medal for the pupil obtaining the highest standing in the entrance to attend the Smithville High School this term.

Beamsville Express—Matters have almost reached a crisis in the affairs of the Citizen's Band of Beamsville and the life of that organization hangs by a thread as it were. The diagnosis given is "lack of interest on the part of many of the present members and other available musicians," the remedy necessary is "the attendance of all members at regular

practices and the infusion of new blood into the organization."

The marriage of Mr. Bernard A. Shrive, eldest son of Mr. James Shrive and Miss Lily Doris Coleman, youngest daughter of Mr. J. H. Coleman of Stoney Creek, took place very quietly at 3 o'clock yesterday afternoon in St. Philip's church, Hamilton. The pastor, Rev. C. B. Kenrick, officiated. Only relatives and immediate friends were present and neither bride nor groom was attended. The former was given away by her father. Immediately after the ceremony the party proceeded to Stoney Creek where luncheon was served and various festivities engaged in. At a late hour the bridal pair left by motor for Toronto. After a short honeymoon by motor-car in northern Ontario, they will return to Stoney Creek where they will

make their home for the summer with the bride's parents.

Bridgeburg, July—George Flaherty, ten years old, of Buffalo, was drowned in the Niagara river last night near the international bridge, while bathing with four other lads. Dragging for his body is under way. About 30 feet from the shore the river bottom takes a sudden drop where dredging operations have cut the way to a depth of 22 feet. The Flaherty boy was the only member of the party unable to swim. He stepped off the ledge and sank immediately. Coming to the surface he asked for help. A 12-year-old lad swam to his assistance but was unable to aid him. Although a police patrol has been working with grappling irons, it has been impossible to find the body, and it is believed his body has

BEHIND every industry in Canada—

—from the patient truck-gardener bowed over his lettuce—

—to the young manufacturer struggling to prove the worth of Canadian skill and Canadian material in some new enterprise—

—stand the railways—the intelligence, the power and the hopes of the railways of Canada.

Not, like the Exploiter, watching to take harsh advantage of hard-times or the follies of a boom—

Not seeking by a moment's shrewdness to "clean up a million and get out!"

Not interested in the price of real estate in just ONE town, or the prosperity of just ONE province—

But, instead, employing their widely-gathered intelligence in the interests of all Canada for all time to come!

For the railways of Canada cannot be lifted up and carried away to serve any other master than Canada!

Their services cannot find any buyer but Canada!

They injure themselves if by asking too high returns To-day they damage the prosperity of the citizens of To-morrow.

The request for increased freight rates is made with these facts in view.

Canada will still have the cheapest, the fastest and the most reliable railways in the world!

This is the third of a series of advertisements published under the authority of
The Railway Association of Canada
formerly the CANADIAN RAILWAY WAR BOARD

passed down the river.
Niagara Falls, N. Y., July 23.—Bobby Leach, who successfully shot the Canadian falls in a steel barrel in 1911, has expressed his intention of trying it again in the near future. The tentative date set by him is August 25. He will make the trip this time in a specially constructed barrel, to be made by a Canadian steel company, which has offered him a \$2,500 prize stock in the company. Police Chief John A. Curry and Mayor Thompson declared to-day they will take steps to prevent any one attempting the trip anywhere in their jurisdiction. Provincial police of Niagara Falls, Ont., have announced they will do likewise. Leach said he intends to go over the Canadian falls. The barrel is to be made of an alloy of aluminum and steel. Leach said and the steel company is anxious to give its product a severe test. The interior will be fitted according to Leach's own plans. Leach has great confidence and believes he can make the trip with success.

St. Catharines, July 20.—There was a unique gathering this afternoon at the Guernsey farm of James A. and Hugh E. McSloy, this city, the occasion being an invitation to the public to inspect what is perhaps the finest herd of Guernsey cattle in Canada. W. H. Caldwell and Frank B. Hillis, secretary and assistant secretary, respectively, of the American Guernsey Club, as well as R. W. Wade of the live stock branch of the Ontario department of agriculture; L. B. Coe, owner of Locke, N. Y.; George Wilson, Lincoln county, agricultural representative and other live stock experts were present. There was an audience of over 200. A judging competition was given for young men over and under 20 years. Messrs. McSloy giving ten, seven and five-dollar prizes in both classes. The winners were: Leo B. Halst, Fenwick, first; W. S. Thompson, St. Catharines, second; R. J. Sauer, Fenwick, third. In the under-twenty-years competition, Clyden Thompson, Beamsville; E. Sauer, Fenwick and Peter Marlow, Smithville, were the winners. R. W. Wade said, in addressing the audience, that if farmers in raising live stock paid more attention to sires, it would mean an increase of six million dollars a year to Ontario farmers. He urged business men to emulate McSloy's in encouraging better stock-raising by taking more interest in the subject. During the afternoon, moving pictures were taken by the Ontario government film men.

ABINGDON
(Crowded out last week)
A. McKinnell met with a very serious and painful accident, a few days ago. He was driving a spirited team to a side delivery hay rake when they got frightened and ran away, throwing him into the rake, when found one arm was broken and other serious injuries. At times he is doing as well as can be expected under the case of Dr. Bell.

During the heavy electrical storm and gale on Friday last four of the big steel towers of the Hydro Power Commission were blown down, doing considerable damage.

Rev. Jas. Bracken of Hamilton very ably filled the Baptist pulpit on Sunday evening.

An Amusement Club was formed in connection with Kerr Sunday School to meet in the field of A. Coon, adjoining the Church every Friday evening. Games and other sports will be provided for both young and old. Quarterly Meeting Services will be held in Kerr Church on Sunday.

Reeve Bush attended a sitting of the County Council during the week.

The moving picture show given by District Representative of Agriculture of St. Catharines in the Agricultural Hall on Friday evening in aid of the Women's Institute, was very much enjoyed and a hearty vote of thanks was tendered Mr. Wilson.

Miss Victoria Nicholls of Hamilton is spending her holidays under the parental roof.

Remember Oct. 1 and 2 Abingdon Fair. The prize lists are about ready for the printers.

Kerr choir sang at the Anniversary Services at the Stone Church on Sunday evening.

Claud B. Nicholls is sporting a new Buick car.

The first annual Re-union of the Packham family was held at the home of Geo. and Mrs. Packham on Saturday with a real good attendance.

WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

WARRING, ONT.
"I had an attack of Weeping Eczema so bad that my clothes would be wet through at times.
For four months, I suffered terribly. I could get no relief until I tried 'Fruit-a-lives' and 'Sootha-Salva'.
Altogether, I have used three boxes of 'Sootha-Salva' and two of 'Fruit-a-lives', and am entirely well."
G. W. HALL.
Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.
"Fruit-a-lives" is also put up in a trial size which sells for 25c.

SPORTING NEWS

OUTLAWS LOSE TO HIGH SCHOOL

The High School team tightened their hold on the soft ball league championship and the INDEPENDENT Trophy on Monday night when they came from behind in the seventh inning and trimmed the bandit boys by a score of 14-8. That looks like a good-sided score but the game was far from being lop-sided, up until the final spasm. When the fateful seventh round opened the kids had six runs and the Outlaws eight. Wray Fisher up to this point had been pitching good ball and it looked like the kids were beaten but Fisher weakened and walked the first three men and filled the bases. He continued to pitch wild ball and walked more men until he had forced four runs across the platter by walks. A couple of hit sand a couple more passes gave the kids four more tallies, making their total for the inning eight. Norton relieved Fisher in the middle of the frame or the kids would likely be running bases yet.

Wilson pitched good ball, real good ball for the high school and his team gave him good support especially "Doc" Farrell who caught ten men out on foul tips.

Box score—
School—110 004 8-14
Outlaws—320 111 0-8.
W. Fisher and D. Fisher.
Wilson and Farrell.

A big National racing car driven by American parties, failed to make the turn at the top of the Thirty Hill properly, coming west on Sunday night and turned turtle in the ditch. A woman in the car was held prisoner underneath when the car turned over but escaped unhurt. Too much speed was the main cause.

BENNER-WILBUR

An interesting wedding took place on Wednesday, July 28, at St. John's Church, Winona, when Rev. S. C. Noxon, assisted by Rev. Mr. West, united in marriage Margaret Somerville, youngest daughter of Mr. and Mrs. M. E. Wilbur, and Mr. Sanford James Benner, son of Mr. and Mrs. Fred Benner, both of Fruitland. The bride entered the church on the arm of her father, to the music of the wedding march played by Miss Hummel of GRIMSBY. She was attired in a georgette silk dress and carried a beautiful bouquet of Ophelia and Sweetheart roses. The bridesmaid was Miss Vera Benner, who was attired in a pink silk dress and carried a bouquet of Russell roses. The bridegroom was attended by Mr. William Wilbur, brother of the bride. Following the ceremony the guests, numbering about fifty, returned to the home of the bride's parents, where a wedding dinner was served. The bride was the recipient of many beautiful presents. Amid showers of confetti the happy couple left for a trip to Detroit.

BOY, PAGE THE KEEPER

"Not content with a bumper crop and high prices some of the fruit growers with cherry orchards are seeking to increase their profits by making small green plums in with the cherries offered for sale. Large quantities of plums, it is said, fell during the storms of last week, and some unscrupulous farmers are trying to overcome the loss by pawing them off on the public as cherries. Other complaints are being received by the police that in some instances baskets are being faced with better fruit than is found underneath. Improper labels and improperly filled baskets are also being complained of. The police are investigating the charges and prosecutions are likely to follow."—Hamilton Spectator.

CULTIVATE HABIT OF SENDING IN NEWS

One of the things that ought to become a fixed habit in every household in GRIMSBY district is that of sending in the news items that you may know of; tell us of your news and any neighborhood or other items that will be of interest to yourself, your neighbor or your friends. Every lodge, church, body or social organization should have some representative who will look promptly and carefully after its news reporting. If you think some organization has better news service than your own, it is probably because that organization looks after such matters better.

Write your items and send them in where possible. Or telephone them, but please don't ask that long lists of names be taken over the telephone, as it not only requires much time but usually errors occur in lists thus given.

Above all be early. Never wait till the last minute to send an item that can be sent early. The INDEPENDENT telephone number is 36—memorize.

Careless and thoughtless driving of motor cars have cost the lives of many of people and thousands of dollars' damage since the auto came into general use in Canada. The railways have been forced to pay out large sums of money in damages.

It should be remembered that drivers of motor cars that are not to run on brakes, and that a motor car has a certain amount of freedom in this regard, should be remembered that a motor car can be stopped within a few feet, while it often takes far more than 100 yards for a train to stop.

Always look before crossing a rail road and be sure to approach the crossing at a speed such that allowing perfect control of your machine.

MILLION DOLLAR COMEDIES

Arrangements have been made by the Management of Moore's Theatre for the showing in GRIMSBY every other week of the famous two reel Harold Lloyd Million Dollar Comedies. Lloyd has become the best known, best liked comedian on the screen and his latest releases are all two reels and are laugh provokers from start to finish. His first picture "Bumping Into Broadway" will be shown on August 7th. The other ones to come are "From Hand to Mouth" August 21st; "Captain Kidd's Kids" Sept. 4th; "His Royal Snyneck" Sept. 18th; "An Eastern Westerner" Oct. 2nd; "Haunted Spooks" Oct. 16th. There are others to follow these.

DO YOUR FEET BURN?

Then use Zam-Buk. There is nothing so soothing for tender, aching or blistered feet. It will end the burning, draw out the soreness, prevent blistering and give you perfect foot comfort. Also there is nothing so good as Zam-Buk for sunburn, heat rashes, blistered hands, aching muscles, mosquito and insect bites, cuts, bruises, burns and all skin injuries and ailments. 50c. all druggists and stores.

ZAM-BUK IS SOOTHING!

GLARING HEADLIGHT LAW

(Continued from Page One.)

into the home of Mr. F. L. Couch and given the best first aid they could devise until the arrival of a doctor who had been summoned. On the arrival of the doctor he at once ordered the victim's removal to Hamilton General Hospital, where it was found she had a fractured jaw and skull.

The reckless auto driver continued on his way and the police have been endeavoring to locate him.

Drove Car Through Crowd

"Ignorance of the law excuses no man" is an old ruling, and disregard of a well known law is generally well punished. On Sunday at the 12:20 car pulled up at the GRIMSBY station an automobile came buzzing down main street, and when some forty feet away demanded right of way by a vicious toot of the horn. As there was no attention paid by the twenty-five or thirty passengers getting off or on the car, the driver of the auto tooted some more and then proceeded to push his way through the crowd. He succeeded but his number was secured and a complaint laid. The number of the car was 20833 and Chief Konkle will locate the driver.

Glaring headlights Again

Glaring headlights were the cause, Providence mitigated the effect when a sedan car traveling east, about 10 o'clock Saturday evening, turned over in the ditch just west of the Western Oil Company's Supply Station at Nelson's Corner.

Three women and three men had stopped for the day at the Village Inn GRIMSBY, and were proceeding on their way to Buffalo in a leisurely way when a driver coming West, with apparently no thought of any but himself, kept his lights going strongly. The driver of the east-bound auto could see little of the road and the weeds along the edge led him to believe the roadway was level to the G. & B. tracks but they were not, the edge of the ditch and the car slipped over. Owing to the slow speed at which the car was going none of the occupants was injured, though the car was badly damaged where it dropped on the bank of the ditch, the right front window was smashed and the body badly scratched.

The County Motors garage was notified and the car was run in beside the Western Oil Company's station where it was repaired and the party proceeded to Buffalo.

FRUIT GROWERS FINED FOR VIOLATING ACT

On Saturday morning two fruit growers appeared before Magistrate Vance, in Hamilton, charged with violating the Dominion Inspection and Sale Act. One grower had shipped to a Toronto Commission House eighteen eleven quart baskets of Burbank plums which were so small and immature as to be totally unfit for consumption and had also failed to stamp or mark his baskets as the Act requires. The second grower had failed to fill his baskets of cherries properly and had neglected to remove or obliterate names of other growers which had been stamped on the baskets. A fine as imposed in each case.

The Dominion act governing the inspection of fruit provides that packages be well and properly filled and requires also that no grower or packer shall pack fruit in a package intended for sale, on which appears the name of another grower, until such name has been removed or obliterated.

The chief fruit inspector for the Niagara district says that fruit growers generally are carefully observing the requirements of the Dominion act, and that the vast majority are anxious to see the regulations strictly enforced. They realize that the welfare of the fruit industry and their own individual interests can be best served by giving to the people fruit of good quality, put up in clean, attractive and well-filled packages, and that it is not fair to allow a few sloppy and unscrupulous men to bring even a small measure of discredit to the fruit industry.

The Dominion act requires that the name and address of the grower or packer be plainly stamped or marked on fruit packages, and, moreover, buying on the Hamilton market or elsewhere, should refuse to accept packages which are not properly marked.

It is possible for the government inspector to see but a small percentage of the fruit put on the market, but the proper placing of the name and address of the packer on the package enables the purchaser, where a case of fraudulent packing is found, to place the blame where it belongs, and assist in having the offending grower prosecuted.

IN MEMORIAM

In loving memory of the late W. L. Stephen and four brothers who left us in 1917.

Time may heal the broken-hearted, Time may make the wound less sore, But it cannot still be longing For the loved ones "gone before."

—C. M. R.
Grimsby, July 30, 1920.

Wed. Aug. 11—"In Wrong" starring Jack Pickford and Canadian Pictorial.

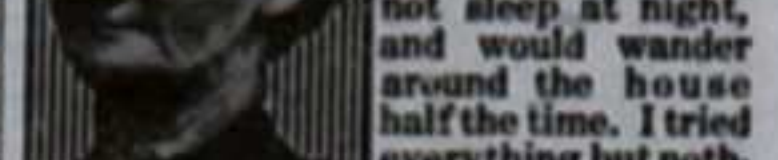

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Owen Sound, Ont.—"I suffered for ten years with female organic trouble, neuralgia and indigestion, and was weak and had such bad pains I could hardly walk or stand up at times. When I would sweep I would have to go and lie down. I could not sleep at night, and would wander around the house half the time. I tried everything but nothing did me any good, and the last doctor I had told me he never expected me to be on my feet again or able to do a day's work. One day one of your little books was left at my door and my husband said I should try a bottle of Lydia E. Pinkham's Vegetable Compound. I thank God I did, for it cured me, and I am now well and strong. I think there is no remedy like the Vegetable Compound for anyone who has my troubles, and have recommended it to my neighbors. You can publish my letter for the benefit of those I can't reach."

—Mrs. HENRY A. MITCHELL, 1767 7th Ave., East, Owen Sound, Ont.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.
